

Review of Graded Track & Field Series 2010

The 2010 Graded Track & Field just concluded proved yet again to be very popular with all athletes. Many personal best performances were achieved. A large number of these athletes travelled considerable distances to participate and achieve their personal goals. We appreciate the support from all athletes in making the series so successful. Thanks must also be said to the dedicated group of specialist officials who turned up consistently to officiate at the various disciplines, to produce the results often working late into the evening.

We now would like to hear from you, athletes and officials past and present with you ideas as to how we can take the series to a new level in the next season. There is no doubt that there are problems as well as merits in how we do our business.

You are invited to submit your proposals big and small to help us to plan for the future. You can do this by posting on the chat board of this site or emailing to the undersigned. Remember if you don't have your say someone else will see their ideas realised and yours will be left on the sidelines.

All ideas and suggestions will be given consideration

Thanks again for all the support.

Tom McCormack

Hon Competition Secretary

Dublin Athletic Board.
